

Sample of Document to attach to AWB

(Desirably, use the Shipper's Letter Head and attach to MAWB)

Date: _____

TO: _____]
(Name of airline)

MAWB No. _____

HAWB No. _____

CERTIFICATION

We hereby certify that the Lithium Cells or Batteries being transported under this AWB are NOT REGULATED and are in full accordance with the conditions of the following Packing Instructions of the current IATA Dangerous Goods Regulations.

1. TYPE OF CELLS or BATTERIES being shipped (check all items being shipped)

- Lithium Ion Cells/Batteries (PI 965 Section II)
- Lithium Ion Cells/Batteries packed with equipment (PI 966 Section II)
- Lithium Ion Cells/Batteries contained in equipment (PI 967 Section II)
- Lithium Metal Cells/Batteries (PI 968 Section II)
- Lithium Metal Cells/Batteries packed with equipment (PI 969 Section II)
- Lithium Metal Cells/Batteries contained in equipment (PI 970 Section II)

2. All packages must be handled with care, and if the package is damaged a flammability hazard exists.

3. The following special procedures must be followed in the event the package is damaged.
a) Packages must be inspected and must be repacked if necessary.
b) Cells and batteries must be protected so as to prevent short circuits.
c) The equipment must be packed in strong outer packaging of suitable material of adequate strength and design in relation to the capacity of the packaging and its intended use unless the cells/batteries are afforded equivalent protection by the equipment in which it is contained.

4. Telephone number if further information is needed.

Note: Enter the phone number of the shipper starting from the telephone country code. The telephone number need not be monitored 24 hours but the 24-hour number may be used if so desired.
